3.  LEGISLATION Tom Smeeton, on the staff of the House International Relations Committee, called to inform me that Representative Jack Brooks (D., Tex.) was planning to take up legislation on protecting intelligence agents. No legislation along these lines has been referred to the House Government Operations Committee to date, of which Brooks is Chairman.

15. [REDACTED] HEARING Called Mike Uhlmann, Assistant Attorney General for Legislative Affairs, Department of Justice, and inquired as to whether the hearing date for Justice to testify before the House Government Operations Subcommittee on Government Information and Individual Rights, had been set. He said Tim Ingram, Staff Director, of the Subcommittee, had called and left a message that the hearing would probably be on the 28th of April but might be on the 29th. I explained that we had made a commitment for the 28th for the Director to appear and would want to follow Justice. Uhlmann will try to work this out. He added that the Subcommittee is pressing for Attorney General Edward Levi to appear, but he is in turning the request down.

6. [REDACTED] LIAISON Bob Fink, Subcommittee on Government Information & Individual Rights, House Government Operations Committee staff, called and mentioned a number of pages in the Rockefeller Commission report referencing different sets of numbers on the files we have on American citizens, etc. I told him we would do our best to rationalize all these numbers prior to any hearing and hopefully he would hear from us later in the week.
